

ABOUT US

London City Auctions Ltd is registered in England and Wales under company number 13664471, Registered Office is 114 High Street, Cranfield, Beds, United Kingdom, MK43 0DG. We are committed to protecting your privacy. This Cookie Policy forms part of our legal information and sets out how we use cookies on our website to help make your visits more effective.

WHAT ARE COOKIES?

Cookies are small text files placed on your computer by websites and sometimes by emails. They provide useful information to organisations, which helps to make your visits to their websites more effective and efficient. We use cookies to ensure that we are able to understand how you use our website and to ensure that we can make improvements to our websites. Cookies do not contain personal or confidential information about you.

HOW WE USE COOKIES

We use cookies to ensure that you get the best from our website. The first time that you visit our website you will be asked to consent to the use of cookies, and we suggest that you agree to allow the cookies to be active on your device whilst you visit and browse to ensure that you experience our website fully.

THE TYPES OF COOKIES WE USE

We use three types of cookies on our website:

- Session cookies that are deleted after each visit
- Persistent/tracking cookies that remain in place across multiple visits to our websites
- Third party cookies that are used by other parties, for example, Google Analytics

Session cookies and persistent cookies are necessary in order for you to use our website. These cookies can be deleted via your browser, but this will restrict the functions that you are able to carry out on our websites. For more information on how to disable cookies in your browser please see the Information Commissioner's Office website. (<http://www.ico.org.uk/for-the-public/online/cookies/>)

Session cookies expire when you leave the website and are not stored on your computer and do not contain any personal data. Persistent cookies last beyond your visit to our website. We use Google Analytics on our website. This is a tracking cookie which enables us to track how popular a site is and to record visitor trends over time. The cookie does not contain any personal data but it does contact your computer's IP address to determine where in the world you are accessing the website from and to track your page visits within

the site. Data associated with the user identifier will be deleted automatically after the retention period of 38 months.

We also use Google AdWords on our website to advertise our services to potential customers on Google by bidding on keywords to appear in search results. We use text-based search ads, graphic display ads as well as remarketing. Google AdWords remarketing is a form of online advertising that enables us to show targeted ads to users who have already visited their site.

We use Hotjar on the website to create heat maps and record visits to the site and watch these back to enable us to learn more about user journeys and how visitors are really using the website. The data is all anonymous and the only device-specific data we collect is:

- device's IP address (captured and stored in an anonymised format);
- device screen resolution;
- device type (unique device identifiers), operating system, and browser type;
- geographic location (country only);
- preferred language used to display the Hotjar Enabled Site.

OPTIONAL COOKIES

These cookies are usually supplied by business partners and help us to filter out information which is not relevant to you.

ACCEPTING / BLOCKING COOKIES

You can accept or block any cookies from any website through your browser settings. For more information on how to disable cookies in your browser please see the Information Commissioner's Office website. (<http://www.ico.org.uk/forthe-public/online/cookies/>). Please note that if you share your computer, accepting or blocking the use of cookies will affect all users of that computer.

COOKIES AND DEMOGRAPHICS

We may use data from Google's interest-based advertising or third-party audience data (such as age, gender and interests) with Google Analytics.
